French Immersion students should have a French-English dictionary and Bescherelle.

Every year, parents/guardians wonder what type of calculator they should get. This calculator is an example of one that many students have liked and found easy to use, with helpful features.

DO NOT SPEND MORE THAN \$20 FOR A CALCULATOR

Many students have found the fraction button feature helpful

2-line display is a great feature so students can see what they have typed in

Trig functions will be required in Gr. 10 – getting a calculator now that they get used to will help them as they continue on
