August 28, 2026

Dear Parents/Guardians:

Welcome to the 2026-2027 school year! We are so pleased to have your child entrusted to our care. Whether this is your family's first year in our district, their last year or somewhere in between, I want to assure you that our staff will do everything we can to best meet the needs of your child.

Attendance continues to be a priority of our district. Attending school regularly is essential for a child's academic success and personal development. When students are present in class, they not only gain knowledge in subjects like math, reading, and science, but also develop important life skills such as teamwork, communication, and problem-solving. Consistent attendance helps children build strong relationships with their teachers and peers, creating a sense of belonging and support. Your commitment to ensuring your child attends school is essential to their growth.

We want all our students to continue to grow and go on to become productive citizens in our local communities and global village. Communication is very important between our families and our schools, so we remind you to reach out directly to your teacher or the administrators with any questions or concerns you may have. We also encourage you to become as involved as possible in the education of your child. Please speak with your child's teacher or administrator to see how you can best support your school. All of our discussions, plans and actions must always bear in mind what is best for our most important stakeholders – our children.

Have a safe, happy, and productive school year!

Sincerely,

Dean Mutch
Superintendent, ASD-N
